Date: November 22, 2024

Dear Parents,

Week after week, we are excited to witness our students' making strides in their attributes. Their progress extends beyond the confines of the classroom, encompassing all aspects of their learning journey. As the weather has been delightful, our younger students have taken advantage of outdoor lessons, showcasing their natural curiosity and inquisitiveness. It is nice to see how these experiences connect with real-life applications.

As we are in the winter assessment period, we want to express our gratitude for your commitment to our students' education. Together, we are cultivating a home-school environment that reinforces their learning from Term 1. Your partnership in this journey is appreciated.

We thank you for your participation in last week's in-house events and subject options day. It has been a genuine pleasure to witness the parents as cheerleaders, particularly during our weekly FS assemblies; your involvement enriches our community.

Our Sixth Form students visited Curtin University and Jameel Arts Centre this week. We also celebrated our outstanding students who brought glory to our school by participating in the Lumos Program (a Gifted and Talented competition) organized by Bridge the Gap Education Consultancy and Training Services on 16<sup>th</sup> November 2024. Their remarkable giftedness and talents truly shone, and we could not be prouder of their accomplishment! We thank our Inclusion team for their commitment to recognising and supporting all our students with unique talents, giftedness and special abilities, consistently going the extra mile to ensure their needs are met.

We extend our thanks to all our stakeholders, especially the PE department, for successfully concluding the DFC events. These events have promoted the significance of holistic well-being within our school community and beyond.

The week consolidated our students' learning through engaging events designed this Friday to showcase their skills and perspectives.

- At "Technova", our primary students expressed their ideas on innovation that fosters kindness, highlighting their understanding of how technology can be a vehicle for positive change.
- "Math Bee Competition" provided a platform for our Primary students where they illustrated how innovative approaches to Mathematical concepts can be applied to everyday contexts enhancing their critical thinking and problem-solving skills.
- The "Show and Tell" session showcased the talents of our FS students to explore their imagination and creativity while developing their confidence in communication.

As we approach the end of the term, we kindly remind all parents to ensure that your child/ren maintains regular attendance and is punctual. This is vital for their smooth transition into the next term without gaps in learning, as well as to meet the requirements of regulatory authorities.

We would like to inform you that the school has arranged an interactive online session on **Positive Parenting**, scheduled for **Friday, November 29th, from 8:00 AM to 9:00 AM**. The session will be led by our *Governor of Inclusion, Safeguarding, and Wellbeing*, Ms. Amna Al Mutawa. To register for this event, please visit: [Webinar Registration Form](#)

With the pleasant weather we are having now, we encourage you to take some time to enjoy strolls with your children. Cherish these moments together and make the most of your weekend.

Sincerely,

**Susan Rubin Varghese**  
Deputy Principal
