Date: January 24, 2025

Dear Parents,

It's Friday again, and it is time to share the wonderful things happening within our school community. Our students and teachers have been diligently working, and their enthusiasm is inspiring!

Witnessing their engagement in the classroom and during outdoor activities is great. With their curiosity and excitement, whether it's sports or other fun activities, our students are wholeheartedly enjoying their time which brings new hopes and aspirations to us daily! We had a fantastic book fair last week; we encourage our families to make reading a cherished part of your child's daily routine. It truly enriches their lives.

Mark your calendars! Our secondary and sixth form students are preparing for their annual sports event which will take place next week. We cannot wait to see you all cheering them on- your support means the world to our students!

In addition, exciting recreational and educational trips are happening across all senior year groups allowing students to connect with the local communities through fun and exploration.

Should you have any academic inquiries, please reach out to the respective leaders and teachers, as detailed in their previous communications.

Please be informed that the MUN organised for this week has been postponed to 31st January to 2nd February.

STEAM sessions

The upcoming STEAM sessions, starting in February, is a valuable opportunity for your child to engage in a program designed to ignite a passion for STEM subjects. By registering, your child will benefit from a curriculum that fosters curiosity and enhances essential problem-solving skills. The STEAM Lab provides hands-on learning experiences that promote exploration, creativity, and critical thinking, all of which are vital in today's rapidly changing world. This program not only focuses on science, technology, engineering, arts, and mathematics but also emphasizes the development of 21st-century skills such as teamwork and innovation. By bridging theoretical knowledge with practical application, students will be better prepared for future career opportunities while also learning the importance of sustainability and recycling.

We encourage you to register your child for this enriching experience and look forward to embarking on this journey of exploration and learning together.

Please note that the Period 1 fee payment period has closed, and Period 2 registration is available with limited seats. FEE: 225 AED/From 1st of February up to 13th of June.
